-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 01 September 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### Disposition of Claims

### **DETAILED ACTION**

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered Claims 2-6 have been renumbered 4-8.

Current claim 1 is now a composite of old 1, 2, and 3.  
2 and 3 should have been cancelled.

Current claim 2 is old 4; it is renumbered 4; Claim 3 is old 5, it is renumbered 5; claim 4 is old 6, it is renumbered 6; claim 5 is old 7, it is renumbered 7; claim 6 is old 8, it is renumbered 8;

claim 9 and 10 were not cancelled. They appear to be reiterated as 7 & 8 ;9 & 10, as they are still pending , are duplicates of 7 & 8 subject matter.

Claims must be numbered and amended in accord with PTO rules. See MPEP for underlining of added language and brackets [for deleting] removed language. Status descriptors of claims must also be used.

### ***Claim Rejections - 35 USC § 112***

Claims 1- 10 stand rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. No augmentation and synergy effects are shown by any objective criteria reported in the specification. Applicant discusses disruption of sleep but does not present claim language clearly identifying "chemical synergy" and showing any measurable effect.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2,3,9,10 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These claims no longer further modify claims from which they depend; they are duplicative of the subject matter claimed, & should have been cancelled, upon amendment.

An examination of this application reveals that applicant is unfamiliar with patent prosecution procedure. While an inventor may prosecute the application, lack of skill in this field usually acts as a liability in affording the maximum protection for the invention disclosed. Applicant is advised to secure the services of a registered patent attorney or agent to prosecute the application, since the value of a patent is largely dependent upon skilled preparation and prosecution. The Office cannot aid in selecting an attorney or agent.

A listing of registered patent attorneys and agents is available on the USPTO Internet web site <http://www.uspto.gov> in the Site Index under "Attorney and Agent Roster." Applicants may also obtain a list of registered patent attorneys and agents located in their area by writing to the Mail Stop OED, Director of the U. S. Patent and Trademark Office, PO Box 1450, Alexandria, VA 22313-1450

***Claim Rejections - 35 USC § 103***

Claims 1-10 stand rejected under 35 U.S.C. 103(a) as being unpatentable over GIAMPAPA-5895652.

Column 6 shows administration of both of the instantly claimed growth hormone augmentors at the instant dosages. Although presented as a thrice a day regimen, summary (a) shows intended is determining an individual's needs and then supplying ingredient metabolites optimal to the bio-cycle period.

***Response to Arguments***

Applicant's arguments filed 9/01/04 have been fully considered but they are not persuasive. Applicant's arguments are to the effect the augmentation is of normal release, not that caused by high levels, and that normal 1 ½ hours after sleep release is augmented, not interrupted.

The claims are not of the scope of this argument.

The GIAMPAPA reference is argued that the thrice a day regimen is contrary to applicant's findings. However, the findings are not seen as in accord with the claim language, which GIAMPAPA meets.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1615

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
